## SECTION 6

### **Recycled Irrigation Water**

- 6.1 Recycled water for irrigation shall be used whenever available. Applicants shall verify with the local water district if recycled water infrastructure is planned for the future. If recycled water is planned to service the area, irrigation plans shall be designed for recycled water to ease conversion at the time the infrastructure is complete.
  
- 6.2 Recycled water irrigation plans shall be reviewed and approved by the applicable water district. Recycled water irrigation plans shall include the following:
  - a. Water District signature block
  - b. Water District standard notes
  - c. Originals signed by Water District (or mylar copy of signed plans)
